

# CCTS Legacy Contexts

Anthony B. Coates, [abcoates@mileywatts.com](mailto:abcoates@mileywatts.com)

9 December 2007

## Introduction

This document lists CCTS 2.01 style contexts that are known to be in use. These contexts are the legacy for which UCM needs to provide support.

## Core Components Library

These contexts are from CCL 06B. All BIEs are ABIEs, unless marked otherwise. BBIEs/ASBIEs are not shown separately if they have the same context as their parent ABIE.

### ??? (undefined)

- Lodging House\_ Party. Defined. Lodging House\_ Contact [ASBIE]
